#### *Fermenting What You Grow*

What is the advantage of fermenting what you grow? What can you ferment? How can you ferment safely? Join **Jeanne Walsh**, UW Extension- Chippewa County Family Living Educator to learn how fermentation can help you enjoy the bounty of farm and orchard for months to come. Leave with a new understanding of fermentation and some new evidence-based recipes.

#### *Monarch Parenting 101*

The Butterfly Lady **Ellen Wynkoop** will share tips and tricks about raising monarch butterflies and growing milkweed. Learn how to find monarch eggs, raise monarch caterpillars, and release adult butterflies in this workshop.

#### *Peonies: Pride of the Midwest Perennial Garden*

**Sam Finazzo**, Owner Grower at Fina Gardens in Barron, WI will share how he manages over 250 peony varieties planted on 7 acres. From fern leaf, intersectional, herbaceous, to rock garden types Sam will tell you which might best suit your landscape and how to take care of it.

#### *Turning Landscapes into Ecosystems - A Lot of Diversity & a Little Chaos*

**Mary Jo Fleming**, CVMGA Volunteer and retired educator will give us tools and principles to minimize our human footprint by transforming our properties into life supporting landscape habitats.

#### *Landscaping for Your Lifestyle*

**Jerry Clark**, Agriculture Agent, UW-Extension Chippewa County will provide guidelines for designing a landscape that is environmentally friendly, sustainable, cost-effective, and visually pleasing.

#### *Growing Hops: Climbing Toward a Cold One*

**Jerry Clark**, Agriculture Agent, UW-Extension Chippewa County. Hops are growing in popularity across Wisconsin as the craft brewing industry continues to expand. Learn the basics of hop production including the biology, pest management strategies, and planting and harvesting techniques.

#### *Everything Houseplants*

**Shaun Christensen**, of Christensen's Florist, a fifth generation local business will demonstrate how to care for houseplants with specifics on watering, feeding, light conditions, transplanting and insect control.

#### *Grow Your Own: Vegetable Gardening for Beginners*

**Ellen Terwilliger**, Master Gardener Volunteer of Eau Claire will provide an overview of vegetable gardening basics including: planning your space, soil enrichment, starting seeds, watering, pest control and storing food.

#### *Gardening with Chickens*

**Dora Wood**, Chippewa Valley Master Gardener volunteer uses sustainable, organic farming practices at her family business, Home Oasis Farm. In this session we will explore the benefits of chickens for you and your garden along with helpful tips on housing and the best breeds for different applications.

#### *Mushroom Growing Workshop*

**Dora Wood**, CVMGA volunteer and owner of Home Oasis Farm will lead participants in a hands-on workshop in which each attendee will make-and-take an oyster mushroom toilet paper roll and a 12" shitake mushroom log to grow at home. class size limited - additional \$10 fee

#### *Tools, Tools, Everywhere - But Which One is Right For Me?*

**Cheryl Skjolaas**, Agricultural Safety and Health Specialist UW Madison Extension and gardener will explain how the most valuable gardening tool you have is your body. Reaching, pulling, pushing, grasping, carrying tasks can be aided by the use of tools. This session will explore ergonomic factors for tool selection and working safely in your garden or yard.

#### *Getting Started in Beekeeping*

**Jodi Lepsch**, CVTC Instructor will discuss the factors that a potential beekeeper should consider before embarking on the adventure that is beekeeping. We will outline the basic equipment that is necessary for successful beekeeping and estimates of associated costs.

#### *The Buzz on Bees*

**Sandy Kenner**, CVMGA volunteer and beekeeper will enlighten us on the life and times of a honeybee. Bees have four jobs to do in not much time - 28 days to be exact. Sandy will share fascinating facts about bees' behavior such as how they sing and dance, and how bees have gained a firm place in world history and culture.
